

TRICO Rear™

The NEW Trico Rear range is a revolution in rear blade technology! They are designed to fit both beam and plastic integral wiper type arms. They also employ advanced beam technology for 180 degrees of clear driving visibility.

The Trico Rear blade programme replaces 30 Exact Fit SKU's with just 12 multi-fit SKU's, covering 85% of all rear blade sales!

The flexible adaptor system is infinitely future proof allowing future new connector designs to be integrated quickly and easily into the range.

Unique TRICO Multi-clip System for maximum vehicle coverage

Trico formulated rubber for long life, quiet performance

Twin rail steel design delivers optimum pressure distribution
